

蕭炎宏著作目錄：

A. 期刊論文

001. Yang, H.-Y., Shau, Y.-H., and Fann, M.-J. (1983) Petrology of spilite from Shihmen Reservoir area, northern Taiwan. *Memoir of the Geological Society of China*, **5**, 97-116
002. Yang, H.-Y. and Shau, Y.-H. (1985) Petrography, mineral chemistry, and origin of degraded basaltic rocks along Northern Cross-Island Highway, northern Taiwan. *Acta Geologica Taiwanica*, **23**, 19-33.
003. Shau, Y.-H. and Chen, C.-C. (1985) A study on properties and resources of foundry silica sand in Taiwan. *Mining & Metallurgy* (Bulletin of the Chinese Institute of Mining & Metallurgical Engineers), **29**, no. 4, 36-48 (in Chinese).
004. Shau, Y.-H. and Yang, H.-Y (1987) Petrology of basaltic rocks from Junghua, Taoyuanhsien, northern Taiwan. *Proceedings of the Geological Society of China*, **30**, 58-82.
005. Yang, H.-Y. and Shau, Y.-H. (1988) Occurrence of pumpellyite-bearing basaltic tuffs in Hsuehshan Range. *Proceedings of the Geological Society of China*, **31**, 24-32.
006. Shau, Y.-H., Peacor, D. R., and Essene, E. J. (1990) Corrensite and mixed-layer chlorite/corrensite in metabasalt from northern Taiwan: TEM/AEM, EMPA, XRD, and optical studies. *Contributions to Mineralogy and Petrology*, **105**, 123-142. (SCI)
007. Yang, H.-Y. and Shau, Y.-H. (1991) The altered ultramafic nodules from Mafu and Liutsu, Hsinchuhsien, northern Taiwan with particular reference to the replacement of olivine and bronzite by saponite. *Special Publication of the Central Geological Survey*, **5**, 39-58.
008. Shau, Y.-H., Yang, H.-Y., and Peacor, D. R. (1991) On oriented titanite and rutile inclusions in saogenitic biotite. *American Mineralogist*, **76**, 1205-1217. (SCI)
009. Shau, Y.-H., Feather, M. E., Essene, E. J., and Peacor, D. R. (1991) Genesis and solvus relations of submicroscopically intergrown paragonite and phengite in a blueschist from Northern California. *Contributions to Mineralogy and Petrology*, **106**, 367-378. (SCI)
010. Shau, Y.-H. and Peacor, D. R. (1992) Phyllosilicates in hydrothermally altered basalts from DSDP Hole 504B, Leg 83---- a TEM/AEM study. *Contributions to Mineralogy and Petrology*, **112**, 119-133. (SCI)
011. Shau, Y.-H., Peacor, D. R., Ghose, S., and Phakey, P. P. (1993) Submicroscopic exsolution in Mn-bearing alkali amphiboles from Tirodi, Maharashtra, India. *American Mineralogist*, **78**, 96-106. (SCI)
012. Shau, Y.-H., Peacor, D. R., and Essene, E. J. (1993) Formation of magnetic single-domain magnetite in ocean-ridge basalts with implications for sea-floor magnetism. *Science*, **261**, 343-345. (SCI)

013. Shau, Y.-H., Torii, M., Horng, C.-S., and Peacor, D. R. (2000) Subsolidus evolution and alteration of titanomagnetite in ocean ridge basalts from Deep Sea Drilling Project/Ocean Drilling Program Hole 504B, Leg 83: Implications for the timing of magnetization. *Journal of Geophysical Research—Solid Earth*, **105**, 23635-23649. (SCI)
014. Hsu, T.-W. and Shau, Y.-H. (2002) A petrographic and mineralogical study of volcanic rocks from the Mayaxueshan area, North Qilian Fold Belt, NW China. *Acta Geologica Sinica*, **76**, 15-30. (SCI-Expanded)
015. Zhang, R. Y., Shau, Y. H., Liou, J. G., and Lo, C. H. (2002) Discovery of clinoenstatite in garnet pyroxenites from the Dabie-Sulu ultrahigh-pressure terrane, east-central China. *American Mineralogist*, **87**, 867-874. (SCI)
016. Shau, Y.-H., Torii, M., Horng, C.-S., and Liang, W.-T. (2004) Magnetic properties of mid-ocean-ridge basalts from Ocean Drilling Program Leg 187. In Pedersen, R.B., Christie, D.M., Miller, D.J. (Eds.), *Proc. ODP, Sci. Results*, 187 [Online]. Available from World Wide Web: http://www-odp.tamu.edu/publications/187_SR/204/204.htm.
017. Liu, Y.-H., Yang, H.-J., Shau, Y.-H., Meng, F., Zhang, J., Yang, J., Xu, Z., and Yu, S.-C. (2007) Compositions of high Fe-Ti eclogites from the Sulu UHP metamorphic terrane, China: HFSE decoupling and protolith characteristics. *Chemical Geology*, **239**, 64-82. (SCI)
018. Chang, S.-S., Shau, Y.-H., Wang, M.-K., Ku, C.-T., and Chiang, P. N. (2008) Mineralogy and occurrence of glauconite in central Taiwan. *Applied Clay Science*, **42**, 74-80. (SCI)
019. Wang, M. K., Tseng, P. C., Chang, S. S., Ray, D. T., Shau, Y. H., Shen, Y. W., Chen, R. C., and Chiang, P. N. (2009) Origin and mineralogy of sepiolite and palygorskite from Tuluanshan Formation, eastern Taiwan. *Clays and Clay Minerals*, **57**, 521-530. (SCI) NSC88-2116-M-047-002
020. Liu, Y.-H., Yang, H.-J., Zhang, J.-X., Shau, Y.-H., Chu, M.-F., Iizuka, Y., and Yu, S.-C. (2010) Kyanite formation and element fractionation in the high-Al eclogites from the Sulu UHP metamorphic terrane. *Terrrestrial, Atmospheric, Oceanic Sciences*, **21**, 277-298. (SCI)
021. Shao, P. H., Shea, K. S., Wang, M. K., Shau, Y. H., Chiang, K. Y., Tsao, T. M. (2010) Red soils developed from Quaternary deposits on the Linkuo terrace, northern Taiwan. *Clay Minerals*, **45**, 371-382. (SCI)
022. Tung, K.-A. *, Yang, H.-Y., Liu, D.-Y., Zhang, J.-X., Yang, H.-J., Shau, Y.-H., and Tseng, C.-Y. (2012) The amphibolite-facies metamorphosed mafic rocks from the Maxianshan area, Qilian block, NW China: A record of early Neoproterozoic arc magmatism. *Journal of Asian Earth Sciences*, **46**, 177-189. (SCI)
023. Tsao, T. M., Chen, Y. M., Sheu, H. S., Zhuang, S. Y., Shao, P. H., Chen, H. W., Shea, K. S., Wang, M. K. *, Shau, Y. H., and Chiang, K. Y. (2012) Red soil chemistry and mineralogy reflect uniform weathering environments in fluvial sediments, Taiwan. *Journal of Soils and Sediments*, **12**, 1054-1065. (SCI)

024. Tung, K.-A.*, Yang, H.-Y., Liu, D.-Y., Zhang, J.-X., Yang, H.-J., Shau, Y.-H., and Tseng, C.-Y. (2013) The Neoproterozoic granitoids from the Qilian block, NW China: Evidence for a link between the Qilian and South China blocks. *Precambrian Research*, 235, 163-189. (SCI)
025. Ker, C.-M., Yang, H.-J.*, Zhang, J.-X., Shau, Y.-H., Chieh, C.-J., Meng, F.-C., Takazawa, E., and You, C.-F. (2014) Compositional and Sr-Nd-Hf isotopic variations of Baijingsi eclogites from the North Qilian orogen, China: Causes, protolith origins, and tectonic implications. *Gondwana Research*, in press. (SCI)
